

BUSINESS BAROMETER

of Commodities and an Index to Prices Existing in the Markets.

INTERESTS SUFFERING SEVERELY

Freezing and Starving to Death. Receipts Light but Shipping Free-Trade Notes.

Office of The Post.

Houston, Saturday, February 11. There was such miserable weather in this section. It is true that thermometer has registered a lower temperature, but the duration of the present cold is broken all records.

In the country the roads are in many places

bad and besides there are no

ways to break up ground for the next

while the freeze may kill insects which

are disastrous to the stock. Few

farmers eat hay or provide shelter and

most cattle that year would have

to go without shelter let alone the cutting of

the grasses are covered with water.

The trees are in bad shape.

The grasses are covered with water.

The country is at a virtual standstill in

the New York and Chicago exchanges will

be closed Monday.

Chicago Country Hides.

The Skin and Leather Reporter says:

The market remains steady at unchanged

prices. There is not much trading. Outside

taking up shipments of previous sales

it is not much doing. The continued cold

weather is beginning to affect the receipts,

which are frozen and can not be collected

promptly.

There are 40 to 60 pounds free of brands

and brands steady. On our lot sales

are holding for 94%.

There are 25 to 40 pounds

light and in light request. They are

not accepted.
